

I'm Outa Here! Project (minimum 3 minutes)
Adobe Premiere (or Movie Maker)

For this project, you will create a movie that utilizes chroma key to "take you away." This project would qualify for those completing the Spanish 4 final project. In this project, you will include:

- Considerable dialog
- Traveling (choose your transportation methods—bike, car, bus, airplane, etc.)
- Various destinations (use green screens to give the feel of visiting various places)
- Subtitles (optional/bonus)

Criteria

- 🎬 You (and you may work with a partner, but you will have to edit the film individually on your own computers) will create a complete a script/shot list. You may vary from this to some degree.
- 🎬 Projects should be a minimum of 3 minutes in length and must include at least two main characters who are trying to get someplace. Have fun with this!! You could be a superhero traveling to save the world!!
- 🎬 You will include closing credits to acknowledge actors and resources used. Note where all musical sequences are from, any video motion backgrounds of locations, etc.
- 🎬 Utilize some effects or keyframing (your choice).
- 🎬 Utilize green screen for at least two scenes.
- 🎬 Finished films will be uploaded to SchoolTube and burned to final project DVD.
